Dear Partners,

With this letter, we would like to, first of all, wish you our best wishes for this year 2024 which is starting, May it bring you happiness and success.

On our side, it promises to be full of exciting new projects.

Indeed, we are pleased to announce that our companies Chromato-Sud SARL and Chromatotec SARL are merging to become one single entity: CHROMATOTEC SARL.

This change is the subject of a merger between two companies with the same manager and complementary activities. It makes it possible to strengthen synergies and promote the development of the CHROMATOTEC company and the brand associated with it.

The creation of this new structure allows us to consolidate the solidity, sustainability and financial, material and human resources necessary to achieve our growth objectives.

Of course, as customer or preferred partner of Chromato-Sud, you will continue to benefit from the same level of quality of our products and services and your contacts remain unchanged.

This merger has been effective since December 27, 2023 with retroactivity to January 1, 2023. Chromatotec SARL has 23 employees on this date spread across two sites in Gironde.

Which brings us to our 2nd motivating project for 2024: **Chromatotec SARL now has a new head office based in Saint-André de Cubzac.** We opened a brand new site at the end of December 2023, which is more functional, resource-efficient and allows us to meet our growth objectives by bringing together all of our design and production activities.

Remaining attached to our territory, this new site remains close to our current activities, since it is located on the ZAC Parc d'Aquitaine de Saint-André de Cubzac.

The company's production site based in Virsac has moved and is no longer active since the beginning of January. Please note our new address for delivery and pick-up:

Chromatotec
1, avenue Jean-Honoré Olibet
ZAC Parc d'Aquitaine
33240 SAINT-ANDRE DE CUBZAC

Our telephone contact details remain unchanged.

We are delighted to share these new projects with you and of course remain at your disposal for any additional information.

Sincerely,

Jean-Philippe AMIET
Executive Director
